CSU Systemwide Committees

• **Institute for Teaching and Learning Advisory Board**

• AA and/or FA may draft a resolution about the status of faculty development directors in the CSU. Faculty development directors across the system are funded/paid at different levels, the scope of responsibilities varies greatly, and who serves as faculty development director does as well. There is high turnover and reduced morale.

• A beneficial resolution would ask campus senate chairs or other appropriate individuals for information regarding the status of faculty development on each campus and best practices regarding how (teaching, research, etc) programs are implemented, funded and staffed.

• Please send comments and questions to dyee@sfsu.edu
CSU Systemwide Committees
