

Ryan Gurney, CPaGE

I was nominated to the senate at the start of Spring 2023 to finish out the term of a prior staff person. In the few months I have been on the senate, I have learned a tremendous amount about campus policies and procedures. I have become very involved in my subcommittee (SAC), and have begun to forge partnerships with numerous units across campus. I would like to take what I have learned, and the projects I have begun, into a full three-year term.
